Description

To provide excellent nursing care, and to actively participate in and contribute to the management of the Endoscopy Unit. Participate in the maintenance of endoscopes and other specialized equipment used in endoscopic and non-endoscopic procedures and provide technical assistance during such procedures.

Responsibilities

- Supervised by the Clinical Coordinator.
- Ensuring a high standard of nursing care to patients attending the Endoscopy Unit, working within company policies and procedures.
- Providing technical assistance during diagnostic and therapeutic Endoscopic procedures, ensuring safe working practice.
- Setting, monitoring and maintaining excellent standards of nursing care.
- Maintaining personal contact with patients and relatives, being sensitive to their needs for courtesy, dignity and privacy and ensuring a friendly environment at all times.
- Maintaining timely and accurate nursing records and ensuring that confidentiality is respected.

- Storing, checking and administering drugs in accordance with established standards and guidelines.
- Working with minimal supervision during endoscopic procedures, admission and recovery of patients and other related procedures.
- Contributing to the local resolution, investigation and follow up action of any informal or formal complaints.

- Participating in the care and maintenance of endoscopes and other specialized equipment, ensuring an agreed standard of decontamination at all times including accurate records of traceability of all endoscopes and associated equipment.
- Ensuring the safe discharge of all patients from the Endoscopy unit including patient understanding of discharge instructions.
- Maintaining a safe and clean environment within the clinical area in accordance with established standards and regulations.
- Provides pre op, post op care and is able to circulate thru procedure rooms.
- Performs other duties as assigned.

Education

- Must be a licensed registered nurse (RN)
- Current Infection Control Certificate and Basic Life Support (BLS) certification required
- Advanced Cardiovascular Life Support (ACLS) a plus
- Minimum two years of experience in a related healthcare position
- Previous endoscopy experience preferred but not required

Qualifications

- Ability to care for patients undergoing endoscopic procedures and to provide technical assistance during diagnostic and therapeutic procedures.
- Ability to assess, plan, implement and evaluate nursing care according to individual needs.
- Must demonstrate an understanding of clinical risk.
- Knowledge of GI diagnosis, treatment and health education.
- Knowledge of EMR system
- Must demonstrate consistent professional conduct and meticulous attention to detail.
- Must possess excellent verbal and written communication skills as well as excellent interpersonal skills with patients, staff, and other health care professionals.
- Current BLS certification
